

CeylonPick

Page Overview — What Every Page Does

One line per page · Main site · Buyer · Creator dashboard · Vendor dashboard · Admin

Version v1.0 · 5 September 2026 · Status: Reference note (companion to UI Specification v1.0)

Version History

Version	Date	Author	Summary
v1.0	5 September 2026	Founder (with AI-assisted drafting)	Initial one-page-per-area overview of all 41 pages and their purpose.

What this is

A quick-reference list of every page in the CeylonPick system and what it does, in one line each. Use it to brief a designer, a developer, or a partner in ten minutes. Detailed sections, components and states for each page are in the *UI Specification v1.0*; behaviour and data in the *Technical Architecture v1.0*.

Rule that shapes every dashboard: **the top of the screen answers 'what must I do today?' and 'how much will I be paid, and when?' in numbers. Tables come after.**

Totals: Main site 8 · Buyer 7 · Creator 8 (1 in v2) · Vendor 6 · Admin 10 · **39 pages + 2 static groups.**

1. Main Site (Public)

No login. Mobile-first. Goal: build trust in five seconds and route the visitor to a niche, an occasion or a creator's picks.

Page	Route	What it does	Key elements
Home	/	Establishes trust and routes visitors	Hero + occasion banner · trust strip · category tiles · creator picks · maker stories · how it works · Earn/Sell cards
Category	/c/{category}	Lets a buyer scan 20–50 curated SKUs and filter	Price chips · 2-col product grid · maker spotlight every 8 cards
Product	/p/{slug}	Converts a first-time buyer to a COD or prepaid order	Gallery · price · Verified badge · delivery/COD line · variants · Buy now · maker story · returns policy · sticky buy bar
Creator storefront	/@{handle}	One link for a creator's bio; sells in the creator's voice; sets the 30-day attribution cookie	Profile · picks with 'why I love it' · code strip · latest video · Earn CTA
Search	/search	Find a product or maker by name	Suggestions · product grid · makers section
Earn with CeylonPick	/earn	Recruits creators and sets honest expectations	Rules in plain language · payout countdown & streak · founding creators wall · earnings example · apply form
Sell with us	/sell	Recruits verified makers and filters out resellers	Why · what we verify · fee table · apply form
How it works / About / Policies	/how-it-works · /about · /policies/*	Answers trust questions before support has to	3-step diagram · founder note · shipping, returns, privacy, creator & vendor terms (EN/SI/TA)

2. Buyer Pages

Phone + OTP only — no passwords, no account creation. Goal: place and track an order with the minimum information.

Page	Route	What it does	Key elements
Cart	/cart	Confirms items and total including delivery	Items · qty · delivery estimate · two-maker notice (auto-split) · Checkout
Checkout	/checkout	Collects the minimum to deliver; COD and prepaid equally easy	3-step accordion: details → payment (COD with OTP / PayHere) → confirm · creator code auto-filled · trust footer
OTP confirmation	/checkout/confirm	Confirms a COD order is real before a courier travels	6-digit input · 'why a code' line · resend timer · success with tracking link
Payment result	/checkout/payment-status	Handles the PayHere return safely	'Confirming with the bank...' until IPN · success · failed with retry / switch to COD
Order tracking	/track/{no}	Answers 'where is my order' without support; opens dispute window	Status chip · timeline with packing photo · courier & tracking · pay-on-delivery amount · Report a problem (48 h)
Dispute form	/track/{no}/problem	Collects evidence fast	Reason · 1–3 photos · note · 24 h promise
My orders	/me	Reorder and track for returning buyers	OTP login · order cards · Order again · language & WhatsApp preferences

3. Creator Dashboard

Login (email + password). Mobile-first with bottom nav. Goal: 'how much am I owed, when, and what should I share today' in one screen.

Page	Route	What it does	Key elements
Dashboard home	/creator	Trust screen: money first, then what to share	'You will receive LKR X on Fri DD' · share block (link, code, WhatsApp) · 7-day funnel clicks → confirmed → delivered → paid · RTO health · top product · recent orders
Links & codes	/creator/links	Product-specific links and their performance	Default link & code · per-product table: clicks, confirmed, delivered, commission
My picks	/creator/picks	Edits the public storefront	Drag-order picks · 'why I love it' · add from catalog with commission shown · profile
Orders	/creator/orders	Shows which orders will pay and why others failed	Filters · masked order list · status chips · commission (grey until settled) · reason tooltips
Payouts & statements	/creator/payouts	Proves exactly what was paid	Next payout · history with bank refs · per-order breakdown PDF · masked bank details
Campaign Board (v2)	/creator/campaigns	Apply to vendor-funded, seeded campaigns	Open campaigns · my applications · briefs · deadlines
Apply	/creator/apply	Onboarding form	Handle · platform · followers · niche · language · phone
Profile	/creator/profile	Identity, bank details, notifications	Masked bank (OTP to edit) · terms acceptance log

4. Vendor Dashboard

Login (email + password). Mobile-first with bottom nav. Goal: tell the maker what to pack today and what they will be paid on Friday.

Page	Route	What it does	Key elements
Today	/vendor	Action first: what to pack; then money	'Orders to pack today: N' + Start packing · payable balance & next Friday · stock-low alerts · RTO & pack-time health
Pack flow	/vendor/pack	Packs orders one at a time with photo evidence in under 60 s	Card per order · items large · buyer district only · mandatory packing photo · Mark packed → next · printable slips at batch end
Orders	/vendor/orders	Finds any order; enters tracking; requests cancel	Filters · status chips · enter tracking no. · cancel request (counts as strike) · detail drawer with dispute evidence
Products	/vendor/products	Keeps stock and prices accurate with minimum taps	Inline stock edit · edit sheet (variants, COD/prepaid flag, images, lead time) · creator commission slider 10–20% · publish → moderation
Payouts & statements	/vendor/payouts	Explains every deduction per order	Price → creator commission → platform 6% → gateway fee → yours · RTO fees as separate lines · bank details
Apply / Profile / Verification	/vendor/apply · /vendor/profile	Onboarding, identity and verification progress	Documents → sample → call → Verified badge · maker story · pickup address · bank

5. Admin (Founder)

Login (email + password + OTP). Desktop-first. Goal: run the whole business from one screen in a 30-minute Monday review and a 5-minute daily check.

Page	Route	What it does	Key elements
Ops & KPI dashboard	/admin	Weekly review and daily check in one screen	Delivered vs target · RTO · margin/order · payouts due · queues as buttons (pickup, OTP >12 h, disputes, verifications, approvals, remittance exceptions) · bank-vs-ledger check ✓/X · orders table
Orders / Order detail	/admin/orders	Sees everything about one order and intervenes safely	Full timeline with actors · packing & dispute photos · OTP attempts · IPN log · ledger entries · only valid next states offered, reason mandatory
Vendors	/admin/vendors	Verifies and monitors makers	Application queue (documents, sample, call) · list with RTO, payable, strikes · suspend/reactivate
Creators	/admin/creators	Approves creators and acts on RTO	Approval queue · list with RTO > 30% flagged · auto-paused at top · pause/reactivate with reason
Disputes	/admin/disputes	Decides within 24 h on evidence	Buyer photos vs packing photo side by side · reject / refund / RTO with templated messages
Ledger	/admin/ledger	Shows balances and proves the bank matches	Balances by account · transactions · reconciliation with exceptions · adjustments (double confirm)
Payouts	/admin/payouts	Pays everyone on the published day in three clicks	Preview → approve (locks, bank CSV) → mark paid with refs · history
Remittance import	/admin/remittance	Matches courier COD cash to orders	CSV upload · auto/manual match · post
Products moderation	/admin/products	Keeps the shelf curated	Queue of new/changed products · approve / request changes
Settings	/admin/settings	Makes the business rules editable without code	COD caps · commission · payout days & minimums · OTP rules · couriers · message templates · occasion banner · kill switch

Shared status language

Every status chip on every page uses the same colours: **amber** = waiting on you · **blue** = in progress · **green** = done/paid · **red** = problem · **grey** = inactive. Buyers see friendly labels ('On its way'); internal state names appear only in admin.

End of document — v1.0
